

Midwestern Health System recovers \$12 million in auto claims reimbursement

Overview

This large Midwestern Health System was capturing payments on just 3.7% of MVA claims—recovering only \$4.6M annually with their prior vendor.

Situation

Suspecting there could be more to recover, system leaders engaged Revecore to provide a Comprehensive Recovery Analysis.

Using the hospital's historic claims and reimbursement information, combined with Revecore's extensive data modeling, a lift of \$4.4-8.4M was projected.

Impact

Within 12 months of full ramp, Revecore achieved an increase of over \$12 million.

Within 12 months, Revecore achieved an increase of over \$12 million.
